## Regenerated Insulating Oil (Premium Grade)

## Reclaimed Insulating Oil (Premium Grade) as sustainable solution for transformers and switchgears.

- ◆ Regenerated insulating oil according to highest quality standard (premium grade)
- ◆ Ecologically-sound and sustainable alternative compared to new insulating oil
- ◆ “As new” properties – meets the performance requirements of IEC 60296
- ◆ Available with or without inhibitor
- ◆ Price stable: not subject to market price fluctuations
- ◆ Secure supply; independent of external market influences

## Let's save valuable resources – together

Customers from the electricity supply industry have appreciated us as a reliable partner for many decades. We are continuously working on the further development of our products and comprehensive services to meet the individual needs of our customers.

To conserve natural resources, our EOS Premium Grade product uses carefully selected used insulating oils to produce a sustainable alternative to unused (new) insulating oil. This product development demonstrates the EOS commitment to the electricity industry, safeguarding valuable resources today, tomorrow and for years to come.

### Specifications for new and regenerated premium grade insulation oil

Water content [mg/kg]	< 30 (typically < 10)
Breakdown voltage [kV]	> 30 (typically > 60)
Acidity [mgKOH/g]	< 0.01
Oxidation stability @ 120 °C at 164h	< 1.2 mgKOH/g total acidity < 0.8 % sludge
PCB content [mg/kg]	Non-detectable
DBDS	Non-detectable
Furfural content [mg/kg]	< 0.05
