SAFETY DATA SHEET

Section 1: Identification of the substance/mixture and of the company/undertaking

Product identifier

Trade name of the substance
Reclaimed Insulating Oil BS148: 2009; L10B

Identification No. 649-466-00-2

Registration number 01-2119480375-34-0010

Synonyms None.

Date of first issue 14-October-2011

Version number 01

Revision date -

Supersedes date -

Relevant identified uses of the substance or mixture and uses advised against

Identified uses Electrical insulating oil; Insulating oil within transformers.

Uses advised against None known.

Details of the supplier of the safety data sheet

Supplier

Company name Electrical Oil Services Ltd.

Address PO Box 79, Bridges Road, Stanlow, Ellesmere Port, Cheshire, CH66 2YZ

Telephone 0845 602 1003

e-mail sales@eosl.co.uk

Contact person Tony O'Regan

Emergency telephone number 0845 602 1003

Section 2: Hazards identification

Classification of the substance or mixture

The substance has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Directive 67/548/EEC or 1999/45/EC as amended

This substance does not meet the criteria for classification according to Directive 67/548/EEC as amended.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards

Aspiration hazard Category 1 May be fatal if swallowed and enters airways.

Hazard summary

Physical hazards Not classified for physical hazards.

Health hazards Not classified for health hazards.

Environmental hazards Not classified for hazards to the environment.

Specific hazards Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.

Main symptoms Direct contact with eyes may cause temporary irritation.

Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Identification No. 649-466-00-2

Signal word Danger

Hazard statements May be fatal if swallowed and enters airways.

Precautionary statements Prevention Use personal protective equipment as required.
Response
IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician. Do NOT induce vomiting.

Storage
Store locked up.

Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information
None.

Other hazards
Not assigned.

Section 3: Composition/information on ingredients

Composition comments
All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume. The full text for all R- and H-phrases is displayed in section 16.

Section 4: First aid measures

General information
If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

Description of first aid measures

Inhalation
Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact
Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact
Flush eyes immediately with large amounts of water. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists.

Ingestion
Call a physician or poison control center immediately. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Aspiration may cause pulmonary oedema and pneumonitis.

Most important symptoms and effects, both acute and delayed
Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. Direct contact with eyes may cause temporary irritation.

Indication of any immediate medical attention and special treatment needed
Provide general supportive measures and treat symptomatically. Symptoms may be delayed.

Section 5: Firefighting measures

General fire hazards
This product is not flammable.

Extinguishing media

Suitable extinguishing media

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Special hazards arising from the substance or mixture
Closed containers can burst violently when heated, due to excess pressure build-up.

Advice for firefighters
Special protective equipment for firefighters
Firefighters should wear full protective clothing including self contained breathing apparatus.
Special firefighting procedures
Move containers from fire area if you can do so without risk. Use water spray to keep fire-exposed containers cool. Water runoff can cause environmental damage. Prevent runoff from fire control or dilution from entering streams, sewers or drinking water supply.

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained. Keep people away from and upwind of spill/leak. Ensure adequate ventilation.

For emergency responders
Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

Environmental precautions
Do not allow to enter drains, sewers or watercourses.

Methods and material for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills in original containers for re-use.

Reference to other sections
For waste disposal, see section 13. See Section 8 for personal protective equipment.

Section 7: Handling and storage

Precautions for safe handling
Avoid prolonged exposure. Wear appropriate personal protective equipment (See Section 8). Wash hands thoroughly after handling. Wash contaminated clothing before reuse. Observe good industrial hygiene practices. Do not eat, drink or smoke when using the product. Do not empty into drains. Avoid release to the environment.

Conditions for safe storage, including any incompatibilities
Store locked up. Store away from incompatible materials.

Specific end use(s)
Electrical insulating oil; Insulating oil within transformers.

Exposure controls

Appropriate engineering controls

Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded.

Individual protection measures, such as personal protective equipment

General information

Personal protective equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection

If contact is likely, safety glasses with side shields are recommended.
- Hand protection
  Wear protective gloves. PVC gloves are recommended. Suitable gloves can be recommended by the glove supplier.

- Other
  Normal work clothing (long sleeved shirts and long pants) is recommended.

Respiratory protection
  When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Thermal hazards
  When material is heated, wear gloves to protect against thermal burns.

Hygiene measures
  Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls
  Contain spills and prevent releases and observe national regulations on emissions. Environmental manager must be informed of all major releases.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance: Colourless liquid.

Physical state: Liquid.

Form: Liquid.

Colour: Colourless, clear.

Odour: Odourless/slight petroleum.

Odour threshold: Not available.

pH: Not available.

Melting point/freezing point: Not available.

Boiling point, initial boiling point, and boiling range: > 250 °C (> 482 °F)

Flash point: > 130 °C (> 266 °F) Pensky-Martens Closed Cup

Auto-ignition temperature: > 250 °C (> 482 °F)

Flammability (solid, gas): Not applicable.

Flammability limit - lower (%): 0,6 % (Approximate)

Flammability limit - upper (%): 10 % (Approximate)

Oxidising properties: Not applicable.

Explosive properties: Not applicable.

Vapour pressure: < 0,1 kPa (100 °C)

Vapour density: > 5 (20 °C) (Air = 1)

Evaporation rate: Not applicable.

Relative density: < 1 (20 °C) (Water = 1)

Solubility (water): Insoluble.

Partition coefficient (n-octanol/water): Not available.

Decomposition temperature: Not available.

Pour point: < -30 °C (< -22 °F)

Viscosity: 13 cSt (40 °C)

Percent volatile: Not available.

Other information: IP346 method DMSO extract for base oil substances: <3,0%.

Section 10: Stability and reactivity

Reactivity: The product is non reactive under normal conditions of use, storage and transport.

Chemical stability: Material is stable under normal conditions.

Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.

Conditions to avoid: Heat, flames and sparks. Avoid temperatures exceeding the flash point.

Incompatible materials: Strong oxidising agents.

Hazardous decomposition products: Carbon monoxide. Carbon dioxide.
Section 11: Toxicological information

General information
Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure

- **Ingestion**: May be fatal if swallowed and enters airways.
- **Inhalation**: In high concentrations, vapours may be irritating to the respiratory system.
- **Skin contact**: Prolonged or repeated skin contact may cause drying, cracking, or irritation.
- **Eye contact**: May cause eye irritation on direct contact.

Symptoms
Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

**Acute toxicity**
May be fatal if swallowed and enters airways.

<table>
<thead>
<tr>
<th>Components</th>
<th>Test results</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

**Skin corrosion/irritation**
Prolonged or repeated skin contact may cause drying, cracking, or irritation.

**Serious eye damage/eye irritation**
Direct contact with eyes may cause temporary irritation.

**Respiratory sensitisation**
Not classified.

**Skin sensitisation**
Not classified.

**Germ cell mutagenicity**
Not classified.

**Carcinogenicity**
Not classified.

**IARC Monographs. Overall Evaluation of Carcinogenicity**
Polychlorobiphenyls (CAS 1336-36-3) 2A Probably carcinogenic to humans.

**Reproductive toxicity**
Not classified.

**Specific target organ toxicity - single exposure**
Not classified.

**Specific target organ toxicity - repeated exposure**
Not classified.

**Aspiration hazard**
May be fatal if swallowed and enters airways.

**Mixture versus substance information**
Not available.

**Other information**
No other specific acute or chronic health impact noted.

Section 12: Ecological information

**Toxicity**

<table>
<thead>
<tr>
<th>Components</th>
<th>Test results</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

**Persistence and degradability**
The product is expected to be biodegradable.

**Bioaccumulative potential**
Bioaccumulation is unlikely to be significant because of the low water solubility of this product.

**Mobility**
The product is immiscible with water and will spread on the water surface.

**Environmental fate - Partition coefficient**
Not available.

**Mobility in soil**
The product is immiscible in water.

**Results of PBT and vPvB assessment**
Not a PBT or vPvB substance or mixture.

**Other adverse effects**
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Section 13: Disposal considerations

**Waste treatment methods**

Reclaimed Insulating Oil BS148: 2009; L10B

SAFETY DATA SHEET - ELECTRICAL OIL SERVICES LTD.

SDS EU

904659  Version No.: 01  Revision date: 14-October-2011  Print date: 14-October-2011
Residual waste
Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

Contaminated packaging
Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code
The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information
Do not discharge into drains, water courses or onto the ground. This material and its container must be disposed of as hazardous waste. Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Section 14: Transport information

ADR
The product is not covered by international regulation on the transport of dangerous goods.

RID
The product is not covered by international regulation on the transport of dangerous goods.

ADN
The product is not covered by international regulation on the transport of dangerous goods.

IATA
The product is not covered by international regulation on the transport of dangerous goods.

IMDG
The product is not covered by international regulation on the transport of dangerous goods.

Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code
Not applicable.

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulations

Regulation (EC) No. 2037/2000 on substances that deplete the ozone layer, Annex I
Not listed.

Regulation (EC) No. 2037/2000 on substances that deplete the ozone layer, Annex II
Not listed.

Polychlorobiphenyls (CAS 1336-36-3)
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 1
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 2
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 3
Polychlorobiphenyls (CAS 1336-36-3)
Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex V
Polychlorobiphenyls (CAS 1336-36-3)
Not listed.

Directive 96/61/EC concerning integrated pollution prevention and control (IPPC): Article 15, European Pollution Emission Registery (EPER)
Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(1). Candidate List
Not listed.

Other regulations
The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended and respective national laws implementing EC directives. Not classified as dangerous according to Directive 67/548/EEC. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006 as amended.

National regulations
Follow national regulation for work with chemical agents.

Chemical safety assessment
For this substance a Chemical Safety Assessment has been carried out.

Section 16: Other information

List of abbreviations
DSD: Directive 67/548/EEC.
DNEL: Derived No-Effect Level.
PNEC: Predicted No-Effect Concentration.
PBT: Persistent, bioaccumulative and toxic.
vPvB: Very Persistent and very Bioaccumulative.

References
REACH Registration; EC 265-156-6; 01-2119480375-34-0.
The mixture is classified based on test data for physical hazards. The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available. For details, refer to Sections 9, 11 and 12.

H304 - May be fatal if swallowed and enters airways.

Follow training instructions when handling this material.

The information in the sheet was written based on the best knowledge and experience currently available.
